Read the following passage carefully and answer the respective questions given below each of them.

What are the good parts of our civilization ? First and foremost there are order and safety. If today I have a quarrel with another man, I do not get beaten merely because I am physically weaker and he can kick me down. I go to law, and the law will decide as fairly as it can between the two of us. Thus in disputes between man and man right has taken the place of might. Moreover, the law protects me from robbery and violence. Nobody may

come and break into my house, steal my goods or run off with my children. Of course, there are burglars, but they are very rare, and the law punishes them whenever it catches them. It is difficult for us to realize how much this safety means. Without safety these higher activities of mankind which make up civilization could not go on. The inventor could not invent, the scientist find out or the artist make beautiful things. Hence, order and safety, although they are not themselves civilization are things without which civilization would be impossible. They are as necessary to our civilization as the air we breathe is to us; and we have grown so used to them that we do not notice them any more than we notice the air.

Another great achievement of our civilization is that today civilized men are largely free from the fear of pain. They still fall ill, but illness is no longer the terrible thing it used to be.... Not only do men and women enjoy better health; they live longer than they ever did before, and they have a much better chance of growing up. Thirdly, our civilization is more secure than any that have gone before it. This is because it is much more widely spread.... Previous civilizations were specialized and limited, they were like oases in a desert.

Question

What according to the author, is the second merit of the present civilization?

- ☐ Development of means of transport and communication
- ☐ Freedom from drudgery
- ☐ Freedom from the fear of pain
- ☐ Mental enlightenment of the people

Eight persons A, B, C, D, E, F, G and H are sitting in the circular table all facing the centre of the table. All the people are not necessary to be in the same order. A sits second to the left of B. Only two people sit between G and F, who is an immediate neighbour of B. More than two persons sit between H and D in both clockwise and anticlockwise directions. D is not

an immediate neighbour of A. E is not an immediate neighbour of G. A does not face E. E does not sit second to the right of F.

Who sits second to the left of the person facing B?

☐ A

☐ E

☐ C

☐ G

Answer the questions on the basis of the following information.

At Hoverbird University there are five faculty members – Promo, Niche, Optimum, Fiskal, Behaware teaches QT (Quantitative Techniques), ME (Managerial Economics), OB (Organizational Behaviour). FA (Financial Accounting) and BM (Brand Management) not necessarily in the same order. Only one subject is being taught in a single day and weekends (ie, Saturday and Sunday) are off.

A professor evaluates a subject paper which he does not teach.

Prof. Promo teaches Brand Management on Wednesday.

Prof. Niche does not evaluate the ME or OB papers.

OB is being taught on Monday.

Prof. Behaware evaluates QT.

Prof. Fiskal evaluates BM and he teaches ME on Tuesday.

Mr. Optimum teaches FA.

Question

Who evaluates the OB paper?

☐ (a) Prof. Promo

☐ (b) Prof. Optimum

☐ (c) Prof. Niche

☐ Either (a) or (b)

A professor keeps data on students tabulated by performance and sex of the student. The data is kept on a computer disk, but unfortunately some of it is lost because of a virus. Only the following could be recovered:

	Performance			Total
	Average	Good	Excellent	
Male			10	
Female				32
Total		30		

Panic buttons were pressed but to no avail. An expert committee was formed, which decided that the following facts were self-evident: Half the students were either excellent or good. 40% of the students were females. One third of the male students were average.

Question

How many students are both female and excellent?

☐ 0

CORRECT

☐ 8

☐ 16

☐ 32
